## **Special Issue**

# Research on Sustainability and Artificial Intelligence

## Message from the Guest Editor

This problem-solving oriented Special Issue will cover a broad range of topics, applying the latest and emerging theoretical and technical advancements of artificial intelligence, particularly deep learning methods, to various realistic sustainability problems. Topics may include, but are not limited to applying the following AI methods:

- Traditional AI and big data analytic methods
- Theoretical understanding of deep learning
- Transfer learning, disentangling task transfer learning, and multi-task learning
- Improvising on the computation of a deep network; exploiting parallel computation techniques and GPU programming
- Optimization by deep neural networks
- Design of new loss functions, design of new activation functions, design of new layers
- Explainable AI (XAI) and visualization methods
- New model or improved model of convolutional neural network

Prof. Yu-Dong Zhang

## **About the Journal**

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

#### **Author Benefits**

## Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

## **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
