

Special Issue

Helping Hands: The Essential Role of Analytical Chemistry in Society

Message from the Guest Editors

The aim of this Special Issue is to showcase the diverse fields that analytical chemistry can be applied to. “Helping Hands: The Essential Role of Analytical Chemistry in Society” will include a combination of review articles and new articles discussing novel analytical techniques that aim to improve sustainability. Of particular interest are articles that examine how analytical chemistry does or can:

- Aid in the implementation and monitoring of policies (e.g., environmental, sustainability, and cultural and ethical).
- Contribute to pollution and waste information.
- Enable sustainable development and sustainable resources.

New articles may examine any of the above plus:

- How existing analytical chemistry methods are being used in novel ways and new fields providing new data and promoting interdisciplinarity research.
- Advancements in existing analytical chemistry methods.
- Entirely novel analytical chemistry methods.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
