

## Special Issue

# Applied Sustainability for SDG Implementation

### Message from the Guest Editors

The aim of this Special Issue is directed to original research on applied sustainability, with specific focus on regional and local approaches that contribute to the real problem solution and the implementation of the Sustainable Development Goals. From practice and action to data-driven research, from global to local and regional spatial research, from community observation to systematic document content analysis, there are a wide range of methods and techniques that appeal to researchers conducting detailed analyses and evaluations of sustainable realities and practices. Nevertheless, sustainability research must make an important contribution in the achievement and implementation of the United Nations Sustainable Development Goals, The 2030 Agenda.

### Guest Editors

Dr. Jorge Trindade

Prof. Dr. Sandra Caeiro

Dr. Carla Sofia Farinha

Dr. Tania Sueily Azevedo Brasileiro

### Deadline for manuscript submissions

closed (31 December 2022)

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
