

## Special Issue

# Sustainability in Architectural Education: Legacy and Experimentation

### Message from the Guest Editors

This special issue wants to examine the barriers and the opportunities within the international architectural education scene in shifting values and creating rapid change in curricula and delivery. It is important to acknowledge the evolution of sustainability in architectural education, encompassing multiple practices involving design studios and technical courses, and to identify early efforts and ways we can build up from those legacies. It is equally important to recognise the emergence of genuine experimentations and unconventional didactic practices which are resulting from better knowledge, greater awareness, more refined analytical tools and, more recently, the new avenues opened by online and digital learning during the pandemic. This issue will aim to take the pulse and give a snapshot of the various efforts made internationally into enabling climate action through architectural education and the formulation of related new educational paradigms.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
