

Special Issue

Performance-Oriented Integrative Sustainability Approaches to Architecture, Urban Design and Landscape Architecture

Message from the Guest Editor

This Special Issue will comprise a selection of papers addressing integrative sustainability approaches to architecture, urban design and landscape architecture from a performance-oriented design perspective. This is an emerging field, which is often interdisciplinary in character and research-by-design focused. Local geography, climatology, biology and ecology, as well as locally specific and newly projected hybrid patterns of land-use play an increasing role in these endeavors. However, the lack of correlation and integration of concepts and methods across disciplinary borders frequently poses considerable problems in deriving instrumental approaches across spatial, temporal and functional scales, domains, dynamics, and stakeholders. This Special Issue of *Sustainability* will include research that contributes to advancing this area of development. Prof. Dr. Michael U. Hensel

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
