

Special Issue

Relationships between Place Attachment and Pro-environmental Behavior: Social and Educational Perspectives

Message from the Guest Editors

The aim of this issue is to collect educational and social studies and reflections that examine the role of positive attitudes towards the environment. Another aspect we aim to deepen is place attachment and its effects on well-being and on social and educational life, taking into account all those who live in the social scene. Overall, we aim to build a frame that includes the following aspects: willingness, daily protection activities, and striving to change the surroundings. These three dimensions cover three levels of environmental activities that include the link between the willingness and the impacts and the cooperation between personal activities and striving to change the public. Therefore, we are collecting interdisciplinary studies that highlight the key role of the aforementioned aspects.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
