

## Special Issue

# Banking, Corporate Finance and Sustainability

### Message from the Guest Editor

This Special Issue is devoted to empirical and theoretical banking and corporate finance studies of sustainability issues, both positive and normative. The Special Issue will also focus on understanding the role of CEOs and boards of directors, financial institutions, institutional investors, and financial markets in the context of sustainability. While submissions from a wide range of perspectives are welcome, special interest is given to the effect of ESG (environmental, social, and governance) issues and environmental management on firm risk and valuation, and international comparisons of institutional, legal (especially contractual), and market structures that foster ESG activities and the consequences around the world.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
