

Special Issue

Toward Sustainability: Bike-Sharing Systems Design, Simulation and Management

Message from the Guest Editors

The goal of this Special Issue is to deal with new challenges in the simulation and management problems of both traditional and innovative BSSs. Models and optimization methods (interdisciplinary approaches are also well accepted), policy suggestions, data analysis, and applications to case studies are just some examples of the possible approaches that can be presented, which essentially aim at encouraging the competitiveness and attractiveness of BSSs and contributing to the further promotion of sustainable mobility.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
