

Special Issue

Biodiversity Conservation and Environmental Sustainability

Message from the Guest Editors

This Special Issue invites scholars to share recently reports on biodiversity conservation and environmental sustainability. This Special Issue will cover progress in the areas of biodiversity surveys and monitoring, the establishment and management of protected areas, conservation effectiveness of protected areas, other effective area-based conservation measures (OECMs), ex situ conservation, ecological restoration, ecosystem services, and sustainable development. Authors are encouraged to share high-quality work in the form of original research articles, best practices, and critical reviews, which are of general interest to readers with an emphasis on sustainability. **Keywords:**

- biological conservation
- conservation effectiveness
- ecological restoration
- ecosystem services
- protected areas
- sustainable development

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
