# **Special Issue**

# Biodiversity Conservation and Environmental Sustainability

### Message from the Guest Editors

This Special Issue invites scholars to share recently reports on biodiversity conservation and environmental sustainability. This Special Issue will cover progress in the areas of-biodiversity surveys and monitoring, the establishment and management of protected areas, conservation effectiveness of protected areas, other effective area-based conservation measures (OECMs), ex situ conservation, ecological restoration, ecosystem services, and sustainable development. Authors are encouraged to share high-quality work in the form of original research articles, best practices, and critical reviews, which are of general interest to readers with an emphasis on sustainability. **Keywords:** 

- biological conservation
- conservation effectiveness
- ecological restoration
- ecosystem services
- protected areas
- sustainable development

# **About the Journal**

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
