Sustainable Development of the Buildings and Construction Sector—Status, Challenges and Opportunities

Message from the Guest Editors

Today, science faces great challenges related to actions undertaken in the frameworks of the sustainable development of the buildings and construction sector (the sector), from environmental, economic and social perspectives. It seems that the greatest challenge of our time is to increase the sustainability, efficiency, resiliency, safety and inclusiveness of the sector in order to achieve the Paris Agreement goals and the United Nations Sustainable Development Goals (SDGs). The sustainable development of the sector is not only a prerequisite for addressing climate change, but it also leads to the enhancement of the quality of life for all. In the sustainable development of the sector model, extremely important roles are ascribed to green building, sustainable construction, modular and offsite construction, zero carbon building, zero energy building, resilient construction, circular economy, lean construction, and digital technologies such as building information modelling (BIM), machine learning and artificial intelligence (AI)...

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
