

Special Issue

Business Model Innovation for SMEs Sustainability

Message from the Guest Editors

Due to resource depletion, planetary boundaries, globalization, climate crisis, insecurities and transformation, the Agenda 2030 as well as many other reasons, companies need to take care for a sustainable development regarding their resources, processes and products and services as well as whole business models. As a result, business models and business model innovations should be designed considering economic, ecological as well as social aspects. Especially for SMEs, it is very challenging to adjust their business model to sustainability goals and maintain sustainability. This Special Issue will comprise a selection of papers developing and deploying approaches, methods, and tools to support business models and business models innovation for SMEs with focus on sustainability.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
