

## Special Issue

# Approaching Carbon Neutrality: Low-Carbon Solutions to Urban Regeneration and Green Economy

### Message from the Guest Editors

This Special Issue will generally focus on studies involving structural materials, urban planning, structural design and optimization, and construction and energy management, which are expected to contribute to the proposal of low carbon development in urban regeneration. Therefore, contributions are expected on, but not limited to, the following areas:

- Building design and planning scheme
- Design and analysis of sustainable building materials and structures
- Upgrading of existing structures
- Examples or case studies of green building and infrastructure
- Urban and building energy management
- Engineering project management and project cost management
- Development of design philosophies and performance criteria of green structures or communities

---

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
