# Carbon Neutrality and Sustainability

## Message from the Guest Editor

With the proliferation of national and subnational governments, non-profit organizations, corporations, and institutions of higher education all pledging to become carbon-neutral, carbon-positive (or carbonnegative), or to achieve net-zero emissions, what role do these pledges serve in advancing mitigation solutions in the face of the climate crisis? Specifically, neutrality pledges have emerged as a salient component of corporate and individual sustainability and climate mitigation policies but often lack substantive details of how emissions reductions will be achieved and include heavy reliance on carbon offsets. We invite papers that explore the technical dimensions and social and political implications of the use of carbon neutrality—and carbon footprint calculation in general—as a framework for achieving a sustainable future. We encourage a specific focus on the navigation of individual vs. collective responsibility and on the lifecycle analyses and technical assumptions underpinning this approach.

# **About the Journal**

# Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G OC5, Canada

## **Author Benefits**

### **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### **Journal Rank:**

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
