Changing Pro-environmental Behavior: Evidence from (Un)Successful Intervention Studies

Message from the Guest Editors

We primarily seek reports of interventions on behaviors that impact the natural environment, such as water or energy use, consumption, recycling, transportation, diet, investments, political behavior and activism, or other behaviors. Outcomes similar to behavior such as intentions will also be considered. Intervention studies should evaluate the effectiveness of behavior change techniques such as persuasive messages, changes to social context, nudging, incentives such as price, etc. The intervention results can be null, mixed, or positive. Replication studies are explicitly encouraged. We welcome papers that might be difficult to publish in standard environmental psychology outlets. Empirical papers with online, laboratory, or particularly field studies are welcome. Studies on potential side effects of interventions (e.g., spillover, rebound) or methodological challenges of intervention studies and systematic reviews and meta-analyses on intervention effects will also be considered.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G OC5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
