

Special Issue

Innovative Approaches in Children Traffic Safety

Message from the Guest Editors

This Special Issue focuses on collecting examples of innovative approaches to the analyses of child traffic safety in different circumstances in which children regularly participate in traffic—as pedestrians, cyclists and vehicle passengers. The idea is to connect research conducted by scientist from different disciplines—transportation engineers, civil engineers, urban planners, psychologists, educators and pediatricians that work separately or in multidisciplinary teams. As children act in very different traffic conditions, and the research proved that their behavior is consequently different, a worldwide comparison of the results of previous studies will enable a consensus of possible general and more local measures that could help to enhance child traffic safety.

Guest Editors

Prof. Dr. Aleksandra Deluka-Tibljaš

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
