

Special Issue

Transitioning to a Circular Economy with Sustainable Waste Management

Message from the Guest Editor

This Special Issue is particularly interested in capturing how sustainable waste management can be used to expedite our transition to a circular economy. You are invited to contribute with new technologies, their implementation, policy analysis/adaptation (including the Sustainable Development Goals), socioeconomic aspects, and, most importantly, case studies that cover one or combination of topics. While the main emphasis is on solid waste, circular economy applications arising from water recycling are also welcome.

Guest Editor

Prof. Dr. Hiroshan Hettiarachchi
(formerly at) United Nations University (UNU-FLORES), 01067 Dresden, Germany

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
