

Special Issue

Citizen Science in Environmentally Oriented Social Science Research: Trends, Projects, and Innovative Technologies

Message from the Guest Editors

Citizen science means the engagement of the general public in research practices. The domain of citizen science lies in natural and environmental sciences, where collecting a vast amount of data by volunteers is welcome, effective, and facilitative. This Special Issue aims to gather a collection of papers that primarily connect social, geographical research and citizen science, including innovative practices and projects, making science more open and interactive with laypeople. The intersection of citizen science with other research domains makes this Special Issue open to geographers, environmentalists, sociologists, and other experts in the different social science fields where the principles of citizen science could be broadly used. We welcome contributions from geographically, economically and even socioculturally diverse countries, regions or cities.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
