

Special Issue

Sustainable Concrete Materials for a Clean Energy Management

Message from the Guest Editor

The aim of this Special Issue is to provide state-of-the-art of concrete applications in the sustainable energy field, from the viewpoints of both experimental and computational studies. Contributions relative to case studies or benchmarks that can demonstrate the versatility of this material in energy-related applications and provide a novel methodology to address the specific issues are welcomed.

Guest Editor

Dr. Gianluca Mazzucco

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
