

## Special Issue

# Latest Trends in Development and Demonstration of Clean Energy Technologies for Sustainable Energy Production

### Message from the Guest Editors

Innovation in clean energy technology is essential to contribute to global efforts to reduce GHG emissions and for the establishment of a prosperous, low-carbon economy. Presently, renewable, clean technologies are being deployed widely throughout the globe and include large-scale and residential solar PV, concentrated solar thermal, wind, hydro, biomass, wave energy, geothermal, green fuels utilisation (including hydrogen and bio-fuels), storage technology, and their mix. The issue will contain a synthesis of the current progress status in technology development, key techno-economic benefits and challenges as well as present barriers, drivers, opportunities, enablers and pathways for a rapid deployment of these new technologies. Original research and reviews articles on smart utilisation of renewable fuels (e.g. hydrogen, biomass, bio-fuels) including clean combustion technologies, concentrated solar thermal for heat and power, innovation in storage (thermal, chemical, thermo-chemical) and other energy forms (wind, hydro, PV, geothermal) are welcome.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
