Special Issue

Cleaner and Sustainable Industry

Message from the Guest Editors

Cleaner production is a concept that aims to manufacture cleaner products and to achieve environmental-friendly processes and services by reducing the environmental impacts while increasing the efficiency in the use of energy, water, and natural and human resources. Although a considerable number of authors have addressed issues related to cleaner production and sustainability assessment in the industry, substantial room for improvement remains. Consequently, the aim of this Special Issue is to cover gaps in the current knowledge about cleaner production and sustainability in industry, especially in the manufacturing, construction and energy sectors, sharing case studies, problems, solutions, new methodologies, techniques and tools, as well as novel ideas and technologies that help to achieve the transition to a cleaner and more sustainable world.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
