## **Special Issue**

# Assessing the Economic Case for Climate Change Adaptation

## Message from the Guest Editor

This Special Issue will consider how economic criteria can best be implemented in order to retain robustness in economic analysis, while allowing for the fact that there are often limited resources available for such an analysis. This challenge will need to be addressed across a range of contexts, including in the following: the management of extreme weather events modified by climate change, which have high impact costs in the short term; appraisal of projects where the costs of climate risks are borne over long time periods; appraisal of flows of large-scale investment funds where the case for climate resilience needs to be made; macroeconomic and strategic-level decisions at a national scale; and the appraisal of overseas development assistance aimed at reducing the damage costs of climate risks in less developed countries.

## **About the Journal**

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

#### Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

#### **Author Benefits**

## Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

## **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
