## **Special Issue**

# Climate Change Adaptation and Disaster Risk Assessments

## Message from the Guest Editors

The current climate crisis is manifested in an accelerated increase regarding frequency and intensity of extreme events. Island and continental coastal states are the most vulnerable in this context. This Special Issue, called "Climate Change Adaptation and Disaster Risk Assessments", has, as its mission, to show the most relevant experiences and main scientific results that are currently being developed at the regional and local scale to face the environmental problems that affect these territories. Research papers that provide methodologies and specifical studies case in areas of coastal risk management, planning, adaptive resilience, citizen science, capacity building for multi-hazard management, and sustainable development, will be welcome.

This Special Issue aims to compile papers that will broaden the scope of the international project entitled "Knowledge in Action for Urban Equality", as well as all the research papers submitted at the XIX Latin American Meeting of Marine Sciences COLACMAR 2022 (https://colacmar.org/) and the III Ibero-American Congress of Integrated Management of Coastal Areas (http://ibermar.org/gial2023/).

## **About the Journal**

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

#### **Author Benefits**

## Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

## **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
