Special Issue

Coastal Ecosystems: Monitoring, Management, Restoration, Preservation, and Valuation

Message from the Guest Editor

Coastal ecosystems are vital to human survival and well-being. This Special Issue of *Sustainability* seeks papers that provide case studies of coastal ecosystems that focus on solutions to the diverse challenges associated with the following: Understanding coastal processes, mitigating damage to coastal areas, sustainable management of coastal lands, and enhancing human value of coastal ecosystems for the fundamental contributions coastal ecosystems make to human well-being.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
