Special Issue

Community Development and Local Food

Message from the Guest Editors

Dear Collegues, What role do local food systems play in helping to transform pathways to sustainability? Are there considerations that need further exploration? What works and why? What are the connection points between community development and local food systems for fostering sustainability? We seek manuscripts for this Special Issue addressing these and other questions about the interface and connection between sustainability and local food systems. These include research papers, communications, and review articles. Sustainability is an interdisciplinary journal, and we encourage manuscripts that offer perspectives across domains of community development and local food systems. Abstract submission deadline: August 31, 2022 Manuscript submission deadline: November 25. 2022

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
