

Special Issue

Co-Creating and Co-Designing Community-Linked Sustainable Urban Developments

Message from the Guest Editors

Communities of citizens, market parties, and civil society actors are increasingly seen as engines of change in a recent phenomenon of citizen participation in urban developments. These non-traditional players and stakeholders are stepping up in diverse and varied constellations to transform their immediate environments with their communities. This phenomenon has challenged how conventional planning power structures and hierarchies might adapt to the dynamic and ever-changing needs of citizens and market parties in search of livability, wellbeing, and sustainable development. This special issue invites submissions that discusses and challenges who make up these communities, which aspects of social learning and innovation are at play and what are the boundaries that needs to be considered for co-creating and co-designing community-linked sustainable urban developments.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
