

Special Issue

Competitiveness of Tourism Destinations and Sustainable Destination Management

Message from the Guest Editor

This Special Issue aims to provide various perspectives for the competitiveness of tourism destinations and sustainable destination management. Each destination has attractive tangible and intangible resources.

Tourism, however, can simultaneously bring positive and negative impacts on tourism destinations. Moreover, for the last two years, external forces have dramatically changed the hospitality and tourism industry. In this regard, this Special Issue invites valuable studies for sharing insightful knowledge and learning different cases for tourism competitiveness and sustainable destination management. The topics of the Special Issue may include relevant stakeholders, partnerships and collaboration, and tourists' experiences at tourism destinations. Conceptual and empirical studies on tourism competitiveness, Sustainable Development Goals (SDGs), and environmental, social, and corporate governance (ESG) are also welcomed. Research in the Special Issue can create synergy and boost collaboration to encourage actions toward sustainability at tourism destinations.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
