

Special Issue

Congestion, Pollution, Road Safety and the Effectiveness of Sustainable Public Policies

Message from the Guest Editors

This Special Issue includes academic works providing evidence on the effectiveness and/or efficiency of implemented public policies that may help in mitigating traffic-related externalities, as well as their direct and indirect consequences. This issue welcomes applied work from different fields that examine, evaluate, and critically engage with a rigorous discussion on the means cities have available to address these mobility challenges. Thus, a variety of topics and policy measures are welcome: investments, regulations, planning, provision of new mass transportation services, enforcement, Maas innovations and Shared economy initiatives, etc. The issue expects to speak to local policy makers delivering a solid ground for their consideration of alternative policies and approaches.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
