

## Special Issue

# Construction Materials for Safe and Sustainable Built Structures

### Message from the Guest Editors

The aim of this Special Issue is to publish up-to-date research contributions related to emerging civil engineering materials for sustainable built structures, including advanced reinforcing materials and concrete composites. We particularly encourage the submission of studies describing the retrofitting of existing structures by means of new materials, as well as those addressing the structural integrity assessment of existing structures. Potential topics include:

- Composite materials for sustainable structures;
- Composite materials as repair/strengthening materials;
- Fiber-reinforced polymer (FRP) composites for construction applications;
- Geopolymer composites used as low-carbon construction materials;
- Ecofriendly construction materials with the use of waste materials;
- Structural integrity assessment of existing and retrofitted/consolidated structures;
- In-service life calculation of new and existing structures;
- Advanced machine learning techniques for the performance design and prediction of innovative construction materials.

For more details, please check: [mdpi.com/si/126256](https://mdpi.com/si/126256)

Any inquiry, please contact (Mark Huang).

### Guest Editors

Dr. Marijana Hadzima-Nyarko

Faculty of Civil Engineering Engineering and Architecture Osijek, Josip Juraj Strossmayer University of Osijek, Vladimira Preloga 3, 31000 Osijek, Croatia

Dr. Dorin Radu

Faculty of Civil Engineering, Transilvania University of Braşov, Turnului street 5, 500152 Braşov, Romania

### Deadline for manuscript submissions

closed (10 June 2024)

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

---

### Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario  
Institute of Technology, Oshawa, ON L1G 0C5, Canada

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
