

## Special Issue

# Constructed and Floating Wetlands for Sustainable Water Reclamation

### Message from the Guest Editors

This Special Issue is dedicated to all types of wetland ecotechnologies, which are available to remove a wide range of organic and inorganic contaminants in the wastewater of multiple origins. This will include both passive and engineered systems for the field-scale and lab-scale investigations. In view of that, the editors of this Special Issue encourage authors to submit new quality manuscripts explaining theoretical concepts or applied science practices in the modern era of wetland engineering and functioning. The specific focus for this Special Issue is given on the environmental performance of these systems through effective plant-microbe interactions. This Issue will include full research, short communications, and critical reviews, in order to present new research results or compile previously published information in a holistic way.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

---

### Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario  
Institute of Technology, Oshawa, ON L1G 0C5, Canada

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
