Special Issue

Sustainable Construction, and Building Resilience and Adaptability for Sustainability

Message from the Guest Editor

The United Nations (UN) 2030 Agenda for Sustainable Development (UN, 2015) includes Sustainable Development Goals (SDGs) and targets that relate to the resilience and adaptive capacity of the built environment (among others). These include, for example, the building of resilient infrastructures (SDG 9), making human settlements more resilient (SDG Goal 11) and strengthening the resilience and adaptive capacity to climate-related hazards (SDG Target 13.1). Four years on from the adoption of the UN SDGs, this Special Issue invites original research articles that will collectively provide a 'state-of-the-art' commentary on their implementation and/or attainment, with a specific focus on sustainable construction, building resilience and adaptability, which are key areas within built environment disciplines that are linked to sustainability.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
