# **Special Issue**

# Sustainable Construction Engineering and Management

### Message from the Guest Editors

Sustainability is increasingly a requirement of building projects. Consequently, the fields of construction management, project management, and engineering are called on to recalibrate work practices and processes to align them with sustainability objectives. The scope of opportunities for engaging with sustainable practices is large, ranging all the way from mining and procurement, through design, materials, and components manufacture; transportation; assembly; commissioning; operations; maintenance; and refurbishing, to eventual demolition and disposal. In the midst of all this are smart technologies, and eversophisticated operational systems that potentially augment sustainable outcomes.

## **About the Journal**

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

#### **Author Benefits**

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
