

## Special Issue

# Conversion and Utilization of Biomass Waste

### Message from the Guest Editors

Biomass waste comes from a wide array of sources that include: agricultural residues, forestry residues, agro-industrial wastes, animal waste, municipal solid wastes and sewage, etc. The utilization of biomass waste not only contributes to reducing pollution, but also provides an alternative way to generate bio-energy and environmental friendly products. This Special Issue aims to attract works of scientific interest to promote the conversion and utilization of biomass waste. Therefore, we encourage you to submit articles covering the following issues: Sustainable utilization of biomass waste. Conversion of biomass waste into clean energy or environmental friendly products. Bioprocessing techniques for the valorization of biomass wastes. Sustainable aspects of biomass wastes management. Techno-economic aspects towards sustainable biomass waste utilization. Ecological or environmental benefit of the biomass waste utilization.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
