# Crop Survival Strategies and Agronomic Practices Facing Potential Climate Change Impact

### Message from the Guest Editor

As crops are pedoclimatic sensitive species, impacts on plant growth and development and on resulting yield and quality parameters are projected to occur under climate change conditions (including changing patterns of temperature and precipitation). Depending on the crop and variety, plants can develop strategies (e.g., stomatal control) to cope with critical conditions of atmospheric evaporative demand and soil water availability. These responses are influenced by adaptation strategies involving cultural practices. The adequate selection of the species/variety, training system, and soil and irrigation management stand out as some of the most important adaptation strategies for the present and future times. This Special Issue seeks original research that addresses crop survival strategies and agricultural management practices under the challenges of potential climate change conditions.

## **About the Journal**

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

#### **Author Benefits**

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
