

Special Issue

The Contribution of Innovation to CSR and Sustainability Implementation by Firms in Emerging Markets

Message from the Guest Editors

Innovations have always been a fundamental driver of society's development. Innovation continues to be a powerful force that allows us to address many challenges that we are now facing on a global scale, especially in the context of sustainability. *Inclusive and sustainable industrialization and innovation* is the 9th of the 17 Sustainable Development Goals adopted by United Nations for 2030. Moreover, sustainable innovation is critical for reaching many if not all of these goals. This is acute in our time of accelerating climate change, the on-going pandemic, and multiple deprivations caused by these forces globally and, especially, in the developing part of the world. For the further reading, please visit the [Special Issue Website](#).

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
