Special Issue

Valuing Cultural Capital in the Smart Cities Era

Message from the Guest Editor

Dear colleagues, The future of our contemporary world is urban, with the majority of the world's population currently concentrated in urban areas. The upwardly urbanization trend witnessed by both developed and developing countries, coupled with the remarkable progress of smart technologies and social media is changing the landscape of urban management and cities' policymaking. Cities are facing new, unprecedented challenges and whilst becoming "smart" thanks to the current technological advances, they still have to deal with their built legacy in a sustainable manner. The urban context, with its opportunities and contradictions, is the place where the battle for a sustainable conservation of heritage needs to be won in the first place. About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
