Special Issue

Frontier Information Technology and Cyber Security for Sustainable Smart Cites

Message from the Guest Editors

Smart cities provision technology-driven services by bringing together the government, citizens, and its resources. Smart city technology sustainability will help enable digital transformation, rapid technology adoption, and empowerment of the society at large. This Special Issue will provide a core knowledge base for understanding and progressing cutting-edge theory and practice for sustainable and secure smart cities. Topics related to smart cities including, but not limited to, the following:

- Innovative and sustainable frontier IT systems and platforms
- IT and Operations Technology (OT) convergence use cases
- Cyber security—the design, assessment, and development of platforms and solutions
- Trust enablement; Privacy preservation
- International standards and policies for sustaining IT and cyber security
- Intelligent, adaptive, and high-performance IT networks
- Case studies on technology-driven sustainable smart cities/cyber security for smart cities

Deadline for manuscript submissions

closed (25 March 2021)

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen
Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:
free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:
indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:
JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
