

Special Issue

Designing Products and Services for Circular Consumption

Message from the Guest Editors

In this Special Issue, people's consumption processes and their implications for design take centre stage. We welcome contributions that address questions such as the following:

- What practicalities are associated with circular consumption, and how do these affect everyday life?
- What are the differences between linear and circular consumption (from a user perspective), and what opportunities and challenges do these differences entail for design?
- How can design enable people to shift from linear to circular consumption?
- What perspectives, competences, processes, methods and/or tools do designers need in order to design products and services fit for circular consumption?

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
