

## Special Issue

# Digital Transformation of Education for Sustainable Development

### Message from the Guest Editors

This Special Issue of *Sustainability* will consolidate researchers and their contributions to the field of digital transformation in the education of the individual, society, business and public administration in relation to sustainable development. Thus, this issue is primarily aimed at people from the scientific and business areas of economics, management, finance, law, information technology and HR departments, as well as scientists who gain knowledge from theory and practice and are able to combine the two. We are undoubtedly witnessing the increased digital transformation of education, which directly affects sustainable development by creating new challenges. Thus, it is necessary to examine the opportunities and threats that occur in the field of education and the mechanisms that cause them. Therefore, this Special Issue focuses on concerns related to the description of these phenomena, their assessment, and identification of best practices. You can find details about the special issue by this link:

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

---

### Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario  
Institute of Technology, Oshawa, ON L1G 0C5, Canada
