

Special Issue

Recent Trends in Digital Financial and Payment Services: Perspectives for Sustainability and Consumer Well-Being

Message from the Guest Editor

The purpose of this Special Issue is to contribute to the ongoing debate concerning mobile payment services and technology and how these technologies promote sustainable socioeconomic development by providing new employment opportunities, access to formal financial and payment channels, and promoting consumer well-being. The topics may include, but are not limited to, the following:

- the role of digital financial and payment services in sustainable and human-centric development;
- the role of digital financial and payment services in promoting subjective/consumer well-being;
- consumer adoption and usage of digital financial and payment services;
- sustainability of digital financial and payment services in the new economy;
- mobile commerce (including mobile shopping) and sustainability;
- resistance to or discontinuation of digital financial and payment services;
- regulatory developments, the implementation of GDPR, PSD2, and other disruptions in the digital financial and payment services landscape;
- industry and managerial perspectives on digital financial and payment services;
- digital financial and payment services and branchless banking in Africa, Asia, and elsewhere.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
