

## Special Issue

# Digital Innovation and Transformation in Healthcare

### Message from the Guest Editors

This Special Issue focuses on DT in healthcare, with a focus on practice and new digital innovations and solutions that could shape sustainable healthcare practices in years to come. We welcome a wide variety of original and high-quality papers, including conceptual and empirically validated work (see our topic list). This CFP aims to attract original studies that push the frontiers of DT in HOCs, and substantially extend existing work practices and service delivery in healthcare.

- digital innovation
- digital transformation
- health information technology
- sustainable healthcare technology
- patient-centered IS/IT innovations
- IT-enabled clinical decision-support
- E-health
- healthcare ecosystem
- big data analytics
- artificial intelligence
- sustainable healthcare business models
- sustainable healthcare
- digital healthcare agility
- online systems for mental health
- online health communities
- health economics

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
