

Special Issue

Digital Innovation for Sustainable Development

Message from the Guest Editors

Digital innovation has been transforming organizational and societal development. We expect incremental and radical digital innovations to be harnessed to reduce inequality; provide new solutions for sustainable development of organizations and society. Eg., digital innovations may have profound implications for platform governance, firms' sustainable advantages, CSR, eco-innovations, frugal innovation in emerging markets, urban governance. The Special Issue gathers high-quality papers that contribute towards theoretical and practical development under digital innovation for sustainable development. We welcome contributions that investigate issues related to sustainable behaviors of organizations from various aspects of digital innovations; original research articles and reviews. Research areas include: digital innovation and CSR; digital innovation for smart cities; digital platform governance and sustainability; digital technologies and social innovation; digital innovation for sustainable advantages; digital technologies and environmental innovations; digital technologies and low-carbon circular economy... We look forward to your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
