Special Issue

Digital Transformation, Social Innovation and Sustainable Business Model Innovation

Message from the Guest Editors

In recent years, the diffusion of digital technologies such as artificial intelligence, cloud computing, social media networks, digital platforms, and virtual reality has significantly transformed companies' roles, strategies, processes, and governance mechanisms. Despite the fact digital transformation and business model innovation has attracted extensive attention from both researchers and practitioners, there is a gap in the literature regarding how digital transformation and resultant business model innovation could be developed sustainably. For instance, what are the key factors that influence the success of digital transformation? How can the digital transformation process be effectively managed? The purpose of this Special Issue is to focus on studies that enhance and broaden our understanding of digital transformation, social innovation, and sustainable business model innovation. We are inviting researchers who are interested in this topic to submit their high-level original research works from various perspectives, including consumer, company, channel, technology, and ecosystem of digital transformation.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G OC5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
