

## Special Issue

# Exploring Relationships between Digitalization and Sustainability

### Message from the Guest Editor

The Special Issue seeks to contribute to an improved theoretical understanding of the relationship between digitalization and sustainability. We invite both conceptual and empirical papers that may provide new insights in the form of frameworks, theory development, and practical examples of the mentioned relationship. Possible topics include, but are not limited to:

- The impact of digital technologies on the triple bottom line (societal, economic, and environmental)
- The circular economy and digital technologies
- Big data and analytics for sustainable development
- Positive and negative impact of digital technologies on energy consumption
- Digital technologies as catalysts for sustainable societal transformation
- Green IT / Climate impact of digital technologies
- Digital communication and sustainability
- Micro-, meso-, and macro-level analyses

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
