

Special Issue

Sustainable E-learning and Education with Intelligence

Message from the Guest Editor

Education provides the best channel of inheritance for mankind's sustainable cultivation of talents. In recent years, there have been many researches on educational technology. Coupled with the COVID-19 period, distance learning and e-Learning have become important trends, and various platforms, applications, autonomous learning, and guidance strategies have all become important topics. In addition, the application of artificial intelligence in education and learning has also received a lot of research manpower input, with the purpose of applying smart technology to improve learning effectiveness. Therefore, this Special Issues will be discussed in the following topics (not limited), and contributions are welcome:

- E-Learning
- Education Technology
- Human Resources and Training
- Distance Learning
- Artificial Intelligence
- AI in Education
- Intelligence Tutoring System
- Affective Computing and Analysis
- Emotions in Learning
- Self-paced Learning (Self-regulated and Self-directed Learning)

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
