

Special Issue

Sustainability in E-waste Management and Implications for Circular Economy

Message from the Guest Editor

The scope of this Special Issue includes, but is not limited to, the following:

- Consumer/public awareness of e-waste (with a particular focus on the small e-waste category);
- Reuse patterns of electronic products, focusing on the circular economy principle;
- Reverse logistics and closed-loop supply chains of e-waste;
- Recent technologies in e-waste recycling;
- Application of lifecycle assessment and material flow analysis models;
- Transboundary movement of e-waste;
- Negative impact of e-waste on the environment and human health.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
