

# Special Issue

## Ecological Transition and Circular Economy

### Message from the Guest Editors

The aim of this Special Issue is to collect high-quality original contributions and review papers focused on Circular Economy (CE) and Ecological Transition (ET) in different knowledge fields. Authors are also encouraged to propose multidisciplinary approaches for CE business models investigations. This Special Issue will welcome scientific papers related but not limited to the following topics:

- Circular strategies for sustainable consumption;

- Circular Economy and Ecological Transition at a supply chain level;
- Circular Economy indicators;
- Circular Economy disclosure and communication;
- Circular Economy and urban sustainability;
- Circular Economy tools (e.g., Life Cycle Assessment; Life Cycle Costing; Material Flow Analysis);
- Big Data Analytics and data-driven decision-making processes for Circular Economy.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
