Economic and Social Consequences of the COVID-19 Pandemic

Message from the Guest Editors

The COVID-19 pandemic has caused numerous changes in everyone's daily life. Its impact is global, as it does not focus only on a given area nor apply to individual spheres. The effects of the COVID-19 pandemic are undoubtedly unheard of for people today. This difficult period has brought about many changes—some of them were introduced temporarily only during the pandemic and some of them will be permanent. It is impossible to cover all aspects and effects of the COVID-19 pandemic. From the point of view of states and citizens, the most visible are economic and social effects. Many industries, sectors, and areas have been affected by economic problems. Some of them have had to change their strategy and tactics. Adaptation processes followed and innovations were introduced, which were accelerated precisely as a result of the pandemic. Aside from the economic effects, the social effects are also very important—people's social lives have been drastically reduced. In addition, very often economic and social aspects were deeply interconnected. More details at: https://www.mdpi.com/journal/sustainability/special_issues/economic_social_consequences

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
