Special Issue

Sustainability of Economy, Society, and Environment in the 4th Industrial Revolution

Message from the Guest Editors

This Special Issue includes selected studies that contribute to our understanding of how sustainability of economy, environment, and society in the 4th industrial revolution is possible. This Special Issue attempts to answer to the requirement "How to respond to the 4th industrial revolution? Open Innovation and Cyber-Physics from Manufacturing to Service Industry, the theme of SOItmC 2018 conference". This Special Issue seeks to collect theoretical and empirical studies on open innovation management, open innovation economy, open business models, open service innovation, open Cyber-Physics, and others. In addition to these 39 papers, which were selected from SOItmC 2018 special sessions, nearly more than 50 papers will be published in this Special Issue.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA
