

Special Issue

Monitoring, Control and Limiting the Emission of Air Pollutants into the Atmosphere

Message from the Guest Editors

In order to assess the effectiveness of the implemented solutions related to the reduction of emissions to air, it is necessary to develop the necessary, highly efficient, green and zero-emission technologies enabling, inter alia, reduction, and in connection with the assumed ambitious goals, ultimately the total reduction of air pollutant emissions, their control and monitoring.

Therefore, we invite you to publish works that include:

- low and zero emission technologies in air protection;
- modern methods of air pollution monitoring;
- modern tools in the control and assessment of air pollutant emissions;
- low-cost air pollution monitoring systems;
- air pollution control systems;
- air quality management;
- modeling and evaluation of air pollution.

These topics are only examples. Other emerging topics in this field of science are also welcome. In accordance with the above context, we invite you to submit original research or review papers.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
